VOLUME 5 DOTHAN, ALABAMA, WEDNESDAY AFTERNOON, FEBRUARY 26, 1913 NUMBER 127

TO THE FARMERS OF HOUSTON COUNTY:

A PLAN TO GET BOLL WEEVIL HELP

Editor The Dothan Eagle

I am sending you this clipping from the Geneva Reaper which I feel would be of interest to the farmers, and property owners of Houston county The proposition of the Chicago Grain Exchange to contribute $1,000 to any county whose people will raise a like amount the money to be used to employ an experienced farm demonstrator for such county, is being accepted by many progressive communities It is easy to see that with the boll weevil in sight of us that something should be done along this line in our county and I wish to urge that The Eagle and our other county papers go vigorously into the matter so that our people will at least have an opportunity to consider the advisability of Houston county's leading the way in this as it has in other forward movements

Yours truly

E R Malone

The proposition of the Chicago Grain Exchange to give $1 000 to any county or community which will raise a like amount the total sum to be used to employ an experienced farm demonstrator for such county or community, has taken deep root in Geneva county and will be pushed to a successful conclusion if such is possible Mr S D McGee cashier of the First National Bank of Slocomb, has taken the matter up in an energetic manner and has attempted to get the co operation of the good people of Hartford to join the people of Slocomb and form a Better Farming Club for the eastern end of Geneva county Mr McGee says the people of Slocomb are ready and willing to subscribe their share of the $1 000 but that the people of Hartford do not seem to realize the importance of the movement, and have as yet failed to join in with the Slocomb people Mr McGee now appeals to the people of Geneva and asks that we of this section join in with the people of Slocomb in raising the $1,000 which will secure for us the $1 000 offered by the Chicago parties, after which an experienced demonstrator will be at your service whose duty it will be to instruct our farmers, by actual demonstration and personal visitation how best to fight the boll weevil and give other agricultural instruction of which the farmers of Geneva county are woefully in need The following letters will explain the matter thoroughly, and every man woman and child in Geneva county who is interested in agriculture and all of us are, or should be—will read every word of the following

Slocomb, Ala Feb 11 1913

Editor Geneva Reaper

Dear Sir - In the last issue of your good paper I note you are favorably impressed with the movement we have started here to secure for this county a permanent and efficient farm demonstrator for which I wish to thank you personally

Our plan to have the city of Hartford co operate with us has fallen through and for the present the work is not progressing as it should in this town we have the assurance of raising $500 providing we can get the organization in good shape, get the money in hands of proper men but this amount is all we can raise for the present in this connection and now we are obliged to induce some other portion of the county to co operate with us

How, about the town of Geneva raising this other $500 or at least a portion of it?

Am sure that by going back to Hartford I can interest some of them I find that it is an easy matter to get money from the farmers on this proposition and this convinces me that if the farmers are really and truly interested in a matter sufficient to put their money into it it is sure of success All the banks of this county should take an active interest in this better farming movement It is a growing and live issue all over the United States The banks and business men are waking up to the fact that the farmer must increase his income and do a profitable business before the banker and merchant can prosper and the advent of the boll weevil is the best thing to move them I am thoroughly convinced that the boll weevil is a blessing in disguise and will prove such to every community that takes time by the forelock and prepares for him

It is an evident fact that this immediate section is no richer than it was 15 years ago except for the increase in value of the real estate The profits from the farm are not here You cannot find one farm in 100 in Southeast Alabama that is making a profit each year directly from the farm

I am deeply interested in this matter and I am sure that you and I have the same idea judging from your able editorial on this subject and it is up to you to push the movement to a head The newspaper cannot do it all but first this matter has got to be placed before the people let them think over it and gradually realize that something must be done and done quickly

I think it is a poor set of men who will allow these fellows in Chicago to offer $1 000 of their cash absolutely for nothing and then not take it I may let a raise this $1 000 and get the other thousand in hand even if we do not see it right now we can have this as a starter then organize a set of live wire officers for the Better Farming Club of Geneva county and turn this money over to them I will guarantee to raise $500 of this money and if you can get a movement started to raise the other half we will soon call a meeting and get the ball to rolling For your inspection I am enclosing all the correspondence in this matter I have had to date and you will note letter from B L Moss of January 30 that after we raise the money he will help us Let me hear from you

Yours very truly

S D McGee

Auburn Ala January 20 1913

Mr S D McGee Cashier First National Bank Slocomb Ala

Dear Sir In reply to your recent letter I would say that there would seem to be no great difficulty in making some such arrangement as you suggested provided you raise the $1 000 required However although I am a member of the State Board of Agriculture which is jointly with the U S Department of Agriculture supervising the expenditure of demonstration funds in Alabama we find it advisable to leave demonstration matters like this to the State Demonstration Agent, Mr B L Moss Montgomery I suggest that you write to him along the line that you have written me He would doubtless visit your county or have the district agent visit your county to assist you in promoting any movement that would lead to the raising of any such local fund as would enable your county to get the benefit of the $1 000 offered by the Grain Exchanges

In reply to your request that I suggest a first class demonstrator I would say that in my opinion Mr H C Bates Union Springs Ala would make you a good man He was graduated in the agricultural course at Auburn about two years ago and until January 1st he has been engaged in teaching agriculture in Louisiana in one of the agricultural schools hence, he knows boll weevil conditions practically as well as theoretically It might be well for you to get in communication with him I shall also mention his name to Mr Moss whose duty it will be in person or through a district agent to look into the qualifications of men offering, for such positions since I believe that the Grain Exchanges require that appointments of this character be approved both by the demonstration authorities and by the authorities of the Agricultural College or Experiment Station

You would have to pay $1.00 to get a good college graduate and for one with much experience after graduation you would have to pay somewhat more

Yours very truly

J F Duggar

Director

Montgomery Ala Jan 30 1913

Mr S D McGee Slocomb Ala

Dear Sir The rules of our department forbid our taking active part in the raising of funds to carry on this work But I would say that if you would be able to raise a fund such as you speak of it is probable that we can co operate with you I could suggest then that you proceed with the raising of this fund and when you have it guaranteed kindly let me know and we will be glad to take the matter up with you

Very truly yours

B L Moss

State Agent

From the above it can very readily be seen that this is a live topic one which should engage the attention of not only our progressive citizens but every person who makes this county his residence should feel that this subject of better farming methods appeals to him directly This is the day of progress the day of improved methods of doing everything and in addition to this era of general progress and material betterment we have another in the fact the boll weevil scourge which has in the past few years laid waste so many thousands of fine acres to the west of us and has ruined many town and cities The Reaper wishes to put it up to the banker the merchant and intelligent farmer of this county that this is a matter of vital importance to our future welfare and upon the success of this movement depends the future of our county and the welfare of our children We have farmers in Geneva county who buy hay from the farmers of Indiana and oats from the farmers of the west

In the name of common sense how can we expect to prosper as long as the state of affairs continues We have investigated this matter and have learned that one hundred farmers have THOUSANDS OF DOLLARS to a furnishing merchant in Geneva Of course he does

What other result could you expect from such a method of doing business The farmers of this county are really in need of instruction in better methods of farming and in order that the farmers of the county may be benefited put them to work and thereby compel a general revolution of business In the end it would be the policy of wisdom on the part of the business men of Geneva town to take this matter up and not merely as a matter of self preservation and from a purely selfish standpoint We know of one advancing merchant in Geneva who could well afford to pay some one $2 00 all by himself and it would be worth it to him and it would bring him in large returns in the future This merchant is a big farmer also he has three big farms under cultivation which should be grown right here at home and the result is that their bank accounts are continually growing larger Nothing else could be expected as a result of such foolishness How long can this continue and what will be the inevitable result are two questions which every advancing merchant should ponder well There is still time to save ourselves but we must be up and doing We must teach our farmers how to farm profitably and intelligently how to combat the boll weevil which is right now in the cotton fields around Geneva or falling in which business stagnation and ruination The Reaper has taken up this matter not merely to have something to write about nor from any altruistic or public spirited point of view but from the view point if you please of self interest We came to Geneva not because we loved the people of this section for they were strangers to us but we came here to make money, and in order that we can prosper the country must also prosper which is the sole reason why we are urging upon our business men and farm is the importance of taking some decisive steps RIGHT NOW to improve the agricultural methods of our farmers The Reaper will contribute liberally toward the raising of the $500 for this section of the county and after the necessary pledges have been received, the enterprising people of Slocomb can be invited over to the county seat and a Better Farming Club of Geneva County can be formed the $1 000 of the Chicago people secured an experienced demonstrator engaged and then we will begin to till our lands in an intelligent manner and as a general result business will quicken and palsate and prosperity in broadcast once more

If you endorse this movement, drop a line to the Reaper office, or tell us about it on the street Now, Gentlemen the up to you What will the harvest be?

There Are More Foolish Buyers Than Foolish Sellers Why?

If you had something for sale you would know first what the article cost you and second just what you wanted for it You would not sell it to the first person trying to buy it unless you could get your price

But are you as careful as a buyer? Most people are not and from this lack of care arises much complaint That which is done hastily is usually not well done what at first glance seemed to be wool turns out to be shoddy a shapely garment loses its fit after the first laundering and so on Bad ware is never cheap Do your shopping with thought and care

Read the advertisements of the reputable merchants advertising in THE EAGLE today read them closely and persistently every day stop with these merchants and you will have no causes for complaint.

The above picture is an exact likeness of Mr Melvin Before taking the course he was as pessimistic in regard to the commercial course as he is optimistic today.

Alford, Fla, Nov 26, 1912.

Mr J P Campbell

Dothan, Ala

Dear Mr Campbell

Since leaving your school, I find that I am almost living in a new world Before taking the commercial course with you, I was only able to do ordinary labor and you know that work of this kind confines one to a very narrow channel of business acquaintances, but since completing your course I find that there are quite a number of good places open for me that I never dreamed were or would be within my reach I have had to turn down several good positions, positions which one time in my life would have been the height of my ambition Now I am contemplating a business of my own and am my own boss Good business men have examined my books, and tell me that they are built right and they are so simple until it seems a child could understand them

I found that the living expenses in Dothan are very small indeed and especially so when compared with other towns of larger size where business colleges are located - but, Professor, the thing that impressed me more than any other one thing is the fact that you do in the college all and more than your advertising matter claims I do honestly and truly believe that if the young people over the country understood the work of your school, and advantages to be gained by attending there, would soon be no other business college in the territory You are I am highly pleased with the results I got and I believe that anyone will feel just as I do after they have taken the course

Wishing you the continued success which you deserve, and asking that you refer any and all prospective students to me, I beg to remain

Your friend and student,

(Signed) O L Melvin

A headline says Chicago is cut off from the world. If it is the rest of the world hasn't missed it

Castro has put a quietus on the social life of Fillis island He took sail the other day for Cuba, and says he won't be back before some time way next month

Over 1,500 policemen have been detailed to guard the inauguration crowd at Washington Yes, there's no telling what some people will do when they are being thrown out

Taft is working mighty fast now to keep up with his engagements He has an engagement with Mr Wilson on the fourth of March, which will serve to cut short his social engagements of note, for some time.

ANOTHER DREAM RIDDLED.

The men who have been playing with air crafts have expected much of the aeroplanes during war Well, it was tried out the other day, and worked contrary to what it should have worked, according to expectations. While the aeroplane was flying high, looking over the lay out of the enemy, the enemy let drive a shell The marksman must have been a good one for he brought down the aeroplane with its driver, and it fell within the lines The man was not killed, but was captured, and taken out of the service of the other side

THE DOMESTIC GUN.

Under the above heading, the Commercial Appeal has the following timely editorial, brought forth on account of the recent killing of Scott in that city by his wife

In the early hours of the morning a woman, a wife and mother, shot and killed her husband.

The reason for the rash act has not been made public It does not matter so much whether she had cause for the murder or not—whether her act was justified or whether it was not—if the gun had not been under the pillow and in easy reach, the deed would never have been committed

As it is, the woman must face a criminal trial and her two young children must travel their remaining days through life under a shadow of an awful crime.

They can never forget the scene enacted in early morning, even before the first rays of breaking day penetrated the chamber The flickering rays of the lonely electric light flashed through the windows affording enough light to see the tragic events They can never forget the fact that their father was shot to death in their presence and their own mother committed the deed.

"I would not have done it," the woman is reported to have said "but the pistol was handy and I could not help it"

Of course, if the pistol had not been so handy, the husband would be alive today, the woman and wife would not be in jail today peeping out the sun through prison bars and two children would not be weeping their young eyes out because of the loss of their father

The truth is that pistols are far too handy in most homes of the south. A man is far beter off with out a gun than he is with one

Many crimes are committed on the spur of the moment The incitation of anger causes many tragedies that would never be committed in lucid moments of calm [illegible] the woman who in [illegible] friends

It's War to the Death on the Fly.

Editorial in Atlanta Constitution

the heat of passion or extreme excitement contemplates murder would only wait until the next day the crime would never be committed The domestic gun is a fatal friend Domestic tragedies are nearly always the result of too much *familiarity with such a weapon* The man or the woman who shoots usually does so because the pistol is *handy The household that has no* gun is much safer than the one that has

Many suicides are the result of just such handy means of death In a fit of despondency the victim feels that the only surcease to sorrow is to be found in the grave In such a despondent mood the domestic gun furnishes the means and is accepted

The habit of carrying weapons should be discouraged The habit of having pistols carelessly lying about the house is one that should be abolished Temptation lurks in the very handle of a revolver It is far better *to be concealed out of reach* beyond the range of vision

Many a man awakes the next morning with the cold, pitiless brain about him, who might be at home and happy but for the reckless use of his pistol Many a man thinks it over with pale, clammy regret and realizes that his hands would be very clean if he had never bought or borrowed a weapon

Tears of sorrow cannot bring back the dead nor can they wash away *the stains of blood*

If this woman had a just cause or grievance against her husband she should have taken it to the courts The laws would have protected her and given her the freedom she evidently craved As it is she has blighted not only her own life but that of those immediately related to the contracting parties

Let the domestic gun alone If you have one lock it up It is a dangerous companion in the household

L. & N. SERVES NOTICE TO OBTAIN INJUNCTION

DON'T LIKE IDEA OF GOING TO 2 1 2 CENTS AGAIN AND SEEKS TO HAVE ORDER OF COMMISSION ANNULLED

Montgomery Ala Feb 27 — Notice has been served upon the railroad commission of Alabama by the Louisville and Nashville Railroad Company to the effect that the railroad company will appear before the United States district court here on Friday February 28 and ask that the commission being enjoined from enforcing its recent order for the re establishment of the two and one half cents passenger rate and that the commission show cause why it should not be held in contempt of court in attempting to violate a recent injunction of the federal court The notice of the railroad company was served upon the state commission Tuesday

Move Not a Surprise

The announcement of the railroad's intention to fight the recent decision of the railroad commission caused little surprise in official circles Tuesday inasmuch as it had been known for several days since the return of District Attorney G W Jones from Louisville that the railroad company would resist the enforcement of the order

It was also understood that the railroad company would ask that the commission show cause why it should not be held in contempt of court claiming that the order of the commission following the recent injunction of Federal Judge Thomas G Jones had the effect of violating that injunction

On the other hand the railroad commission set out at length in its decision that there was no violation of the spirit of the court's injunction in view of the fact that the commission had dealt primarily with the passenger rate whereas the courts decree embraced the rates jointly

Commission's Rights

The commission held in its decision that it had a right to show cause why the reasonable passenger rate should not be fixed by that court maintaining that the passenger rate and the freight rates were entirely separate and distinct but that they had been handled jointly by the

LISTEN!

No imitation has a place in good business judgment or honesty Now then, can an imitation sold at a low price in order to give the dealer a little more profit be either like, or as pure, good and wholesome as the original? Common sense answers no. Therefore when you ask for Coca-Cola see that you get Coca-Cola It costs you no more than cheap and dangerous substitutes, and a trial will convince you that the best is always found in bottles Inspect the carton also the bottle See that the copyrighted word Coca-Cola appears on both If not, refuse it.

Saves Miles of Steps—Low Fixed Price

How One Club Member Uses Her Hoosier Cabinet to Save Work

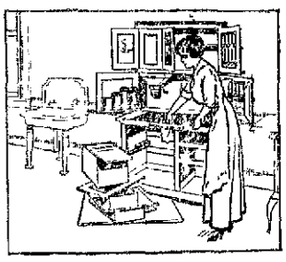
Clean Sugar

Keep cool at this sugar bin. When I take out one scoopful another flows down always ready. Just like this.

The sugar bin is made of rust proof metal and fills from the top. Here—just like the flour bin on the other side. The first sugar in is the first sugar out.

Work Seated

Efficiency in kitchen work was convenient. I didn't want a Hoosier Cabinet. Now I wouldn't keep house without one. First I did it this way—when I pull it out it locks. I can sit down at work. It is *10 inches lower* and not 33 as other my old table.



Everything Handy

Here is the flour cupboard. You see even while sitting I can reach up to the highest shelf. It is a whole lot different than walking back and forth for everything. I put it

Easily Cleaned

See how easily I can take it out for cleaning. Simple, isn't it? The complete cut out to lodge in where. That is why the Hoosier keeps so fresh and clean all the time. I can set it up to the window or to the porch if you like and let the sunshine into every corner. The Hoosier is the most sanitary cabinet made.

Dust Proof

Now in this cupboard everything is done every thing is put in I have dust proof doors. My kitchen looks so much better so fresh. Things *stay more* fresh keep clean. The cabinet lessens the room than a kitchen table. It is made of oak and guaranteed not to warp. Easy to buy time. You can get one.

Crowds Enroll In Hoosier Club

15 Memberships Seized Eagerly—10 Left—End Is Near

Surprising beyond our expectations has the response to our offer of Hoosier Enrollment. Each member has her Hoosier already in her home now—each is saving miles of steps to the table and at least two hours loss in the kitchen.

Which means, oh so few cabinets left for the housewives.

Now is your last chance. The last member that joins in the contest will have to wait for next year. Yes, you are sorry. The Hoosier Company will wait until the last minute. In the minute that is gone all the rest may be gone.

Will you delay while the last opportunity is slipping away from you? Will you hesitate? Join a Hoosier member right away. Answer the call and you can join the delay tomorrow may be too late.

Only Chance to Get Hoosier on Paymet of $1.00

Come in and see the splendid Lady Hoosier Kitchen Cabinet with its wonderfully complete equipment. Don't be satisfied until you own one.

The metal lined flour bin with its sifter. The Hoosier Sugar and cake dredger. The rows of spices, cinnamon, nutmeg and coffee and spices delight every housewife. You will be marvelous at the marvelous array of patented convenience. Only one in the world.

A GLASS SHOWS YOU how having everything all on one table within reach of your arm saves hours of tiring, tedious cooking, cake.

Sitting at your work saves your health and strength. Every cent will tell you that nothing is worth more than a rest on your feet.

A SPLENDID ALUMINUM TABLE TOP. Large enough to pull out when you are using it as a table. A large piece of the Hoosier—Aluminum porcelain is the most sanitary ware is used on all Hoosier Cabinets.

Now is your time and opportunity to keep up with the times. Come in today and see the model kitchen. Make your own terms. Come in today and see the model kitchen. Make your own terms. Come in today and see the model kitchen. Don't wait until the last day. Don't put off until tomorrow. Don't put off

EASTER 1913

Love comes to me as the pure bright flowers of springtime
As babbling brooks and starlights twinkling beam
And wraps our souls in love's fond sweet melodies

Lightens our hearts like sunlight's golden sheen

Love lingers with us when the shadows darken
The touch of love our fingers ever hold
Kind thoughts do ever make us hearken
And bid us never let our speech be cold

Dream then of love—the love that still endureth
For God is love and He our lives controls
The dreams of youth are like the pebbles rolling
Nearer and ever nearer to their goals

—Anna S Rogers

Miss Ida Reid hospitably entertained the D A Q Club yesterday afternoon at a most delightful meeting in honor of Miss May John who will be her house guest for several days

Miss Reid's list included the Club members and guests numbered twenty four who enjoyed the several games of bridge The pretty prizes were awarded to Miss Johnson Mrs O P Green and Miss Brown

Refreshing punch was served by Miss Ruth Stapleton and Miss Annie Howell Jordan who also assisted in serving delicious refreshments after the games

Cards have been issued by Mrs H H McIntyre for a reception to be given in honor of her two charming visitors Miss Bess Bell of Whitton Va and Mrs McIntyre will also entertain in compliment to the [illegible] bride elect

Mr and Mrs G [illegible] Dick on West Main entertained at a delightful bridge affair on Saturday night The score cards appropriate to the day were turkey hatchets which marked the places for Mr and Mrs Eric [illegible] Mr and Mrs [illegible] Hunt Mr and Mrs Ray Jones Mr and Mrs H G Smith Mr and Mrs John Walker After the games the guests were invited into the dining room where elaborate refreshments were served

The New Century Club held its regular meeting at the pretty home of Mrs A I Murchison on West Troy Street yesterday afternoon Mrs I M Stevens presiding

Roll call was given with responses on interesting facts about Central America Since the subject for the afternoon continue the week work on South America and Mexico was on the matter of real importance of the development advantages and benefits accruing the building of the Panama Canal The following excellent program was enjoyed with great interest and benefit

Lesson Review Mrs I B Culver

Paper and Map Study on the Panama Canal—Mrs Malone

Reading, Selected from Bryant Mrs R I Chent

Magazine Talk Mrs S A Felder

Mr Murphy was assisted in serving a delicious salad course by Miss Lest Mrs Vaughn and Miss Bess Lee Rentfro The club brought the sum of twenty Mrs Lee Thompson and Mrs W P Cone as guests Mrs Hunt was informed a much appreciated member of the club before going to her home in Opelika

BRIDGE PARTY

Measure your waist in inches not too tight
In the [illegible] many pennies dull or bright
Tell we need the pennies more
Please come promptly to Mrs Wilson's door
Midnight closes the fun will begin
Honor demands our debts we end

Thursday night February 27 1913

To be given by Class No 35 Foster street Sunday School Proceeds to go to Sunday School debt There will be instrumental music by Mesdames Hugh Smith M B Byrd and F W Grant A beautiful solo by Miss Bellews of Whitestone Va and several selections by the Harmony Club with quartette

Refreshments will be served Invitation to all

SPECIAL—Trunks and bags 50 per cent less than regular price for few days only Smith Furniture Co t27

IN LOVING MEMORY OF MR EDGAR I KILLINGSWORTH

We have before us an extremely sad and touching subject the death of Mr Killingsworth

The people in the whole of the surrounding country were filled with horror to hear of this recent tragedy

But the details of this heart rending occurrence have been printed in a former issue of this paper so we will only endeavor to give the readers who did not know him some idea of the true and noble life of Mr Killingsworth and those who knew and loved him some word of comfort

Mr Killingsworth was a man that took little of his own business until he was needed by his neighbor friend or stranger than he seemed to forget about his own rest and entered heart and soul into the help of the needy

A man with more tact and ability to adjust difficulties between parties I have never known He would go to the persons involved on both sides and tell them where they were wrong, reason with them and tell them just what he thought of their conduct too And yet it was all done in such a straightforward honest and truthful way until they were nearly always convinced of their error and went about making amends and never thought hard of Mr Killingsworth

There is a saying that no man can live in this world without having an enemy of some kind at some time Even though this be true it can be truthfully said of Mr Killingsworth that name as near having among his acquaintances all friends and no enemies as is possible for a human being

Although our hearts are heavy and our eyes overflow with tears I think of the death of this noble man, yet we sorrow not as those who have no hope for Mr Killingsworth was a true Christian gentleman To his God worshipful dutiful and true To his fellowman considerate upright and kind To his church devoted

I can never forget how he urged me to stick to my post as Superintendent of the Sunday School How he put his hand on my shoulder and told me to go ahead that I had a friend that would stand by me that he would do all in his power to help me And too how faithful he was to come every Sunday and bring his family and to influence his neighbors to come and bring their families and how through his efforts we had the best Sunday School Cedar Springs had ever known

In conversation with a friend one day Mr Killingsworth said Brother ——— I strive today and each day that I live to live so that tomorrow should I be called before my God that I will be prepared to go

All friends with these noble words ringing in our ears and with the noble deeds of his life before our eyes proving to us that he lived up to his motto even though he was snatched from this world without a moment's notice we know of a surety that he is now at rest in that Glory World up yonder where he is forever free from the trials and temptations of this life that he is now dwelling in a mansion not made with hands there with his God with is Lord and Saviour Jesus Christ with all the Holy Angels and with all the Saints and Christians of the past ages he is now enjoying the beauty and the peacefulness and blissfulness of Paradise The life he lived while here stands out as an example for us all creates within us a desire to live nobler and better lives creates within us a desire as we see him through the eye of faith in the realms of peace and glory beckoning to us to come up higher to strive to live such lives that when we too must cross over the river of death that we even as he may live and reign with God forever and forever

Shall we?

—B M Stewart

SWAT 'EM!

An American girl is the first woman to fly over the English channel And speaking of flies are you a member of the swatting crusade? If not join forthwith and do it Doing what Swatting flies and if you would live to be healthy wealthy and wise you'd better get into the ranks

If some one told you that that delicious apple pie was inoculated with typhoid germs how quickly you would push it away in fear and disgust and yet you nonchalantly shoo off the germ fly that is crawling around its crust and consume it with relish There's danger in that pie There's death in that fly Swat him

Watch your homes Burn the unnecessary rubbish and waste as soon as possible Keep scrupulously clean Don't dump dirt destroy it with cleansing fires One of the easiest ways is to start the children swatting Offer to give one who kills the greatest number of the pests a little reward at the end of the summer and you won't need to buy any sticky paper or poison stuff

This is no joke Each one you hit means the death of its hundreds of descendants You do many harder things to prevent disease Why not take this in hand early in the season and not run any risk? Begin your swatting now —Isabel Woodman Waitt in Coos County Democrat

Best Drugs Needed

Be sure that all drugs and chemicals used in killing flies are fresh and pure otherwise results may not be satisfactory
